27 July. A t noon, a total of 20 MiG-17s with auxiliary fuel tanks were towed from the northern hangars to a place between the little wood and the former eastern hangar where they were parked. The jet fighters took off in elements of two or in two elements of two respectively at intervals of about 25 minutes. These planes practiced formation flying for ore the landing of the first planes, the mest 2 and four aircs off and headed toward the Golm Hill. Air activity was termin 28 July. There was air activity in the mornal . In the afternoon, MiG-17s with auxilia individual flying. Aircraft from the western hangars to flights lasted about 15 to 20 minutes each south, west n coming from an easterly direction. At 1630, and then t air activity was terminated, 29 July. There was no air activity. 30 July. There was no air activity. The aircraft were towed out of the hangars and parked in lines in front of the hangars. Maintenance work was apparently done. Groups of five men each were seen w on the landing gears of some planes. t fighters, apparently all MiG-17s, The planes were not jacked up. A te and 18 to 19 jet fighters were were parked in front of the norther parked in front of the western hanges 1 August. At 0900, one Il-28 took off. After the take-off, a sleeve target was seen. The aircraft circled over Jueterbog firing range, where light 37-mm AA guns fired at the sleeve target. About 40 minutes later, the Il-28 landed, after the sleave target was dropped over the mages to the target were seen. Immediately after the first I1-28 h mext I1-28 took off at 0942, 1 and repeated the a At 1020, the second I1-28 Between 1400 and this b, the jet fighters with auxiliary fuel tanks from es precident flying in elements of the . Thuse planed headed rious directions. After being aloft for 20 misses, the jet fighters From an easterly direction. Except for a few Mid-19e, all other jet fighters involved in air activity were MiG-17s. 2 August. Between 9700 and 0900, Il-28s towing sleeve targets flew over the firing range where the isruets were fired at by light AA guns. After the last were towed from the northern hangars to a place east I1-28 had 1 of the lit were parked in aline. The jet fighters took off in elements of two of 12 minutes and headed toward Markendorf firing range. The planes landed again after 20 minutes. At 1400, air activity by MiG-17s was terminated. At 1600, four Il-10s with red propeller hubs landed individually at intervals of 5 minutes each. These planes were parked infront of the southwestern hangar. From 2000 until nightfall, Il-28s with sleeve targets circled individually ofer the firing ne western hangars practiced 3 August. Between 0700 and 1200, je flying in elements of two. These pl the field at a very high altitude. Vapor trails were seen. A s landed at the field after they had crossed over the field in flight formation in an easterly course. At with a sleeve target circled over the firing range, where the the state at an angle of ground target, dropped one beat, and then repeated the 16 bombs was dropped by the eight \$1-10s. No landing
